ANDREI ALEXANDROV
Front-End Developer

EXPERIENCE

2024 (October) Freelance project - Vocal coach portfolio
The portfolio was developed using Next.js 14, TypeScript and SASS for a vocal and artist coach based in Sofia, Bulgaria.
https://iskravocal.com/

2024 (March - July) EnduroSat AD
Junior Front-End Developer for Satellite Operation Systems
Engaged in the design and development of a next-generation satellite operations platform capable of autonomously managing hundreds of satellites. Built efficient components within an Electron-based application utilizing React.js and Node.js.

2018 - 2020 Airbnb - Supervisor/Manager
Communication with foreign clients (from Germany, Austria, England). Transportation, accommodation, solving problems related to their stay and organizational planning.

2015 - 2017 NGO "Factory for ideas"
Team leader for various EU projects taking place in countries such as Italy and Turkey. Prepared workshops, events and documentation.

EDUCATION

2024: React & TypeScript - The Practical Guide (Maximilian Schwarzmüller)
2022 - 2023 IT Talents training camp
An intensive course for acquiring basic and advanced web development knowledge and practical skills, based on JavaScript and React.js.
2020 - 2021 Software university
Successfully completed programming basics course - Java.
2014 – 2016 Sofia University "St. Kliment Ohridski".
Master: European Projects.
2008 – 2012 Sofia University "St. Kliment Ohridski".
Bachelor: European Studies.

PROJECTS

My Portfolio
https://andrei-alexandrov-portfolio.netlify.app/

Personal project - Cocktails catalogue
https://cocktails-site.vercel.app/

Personal project - IMDB clone
https://imdb-next-js-andrei-alexandrov.vercel.app/

Personal project - Taskify
https://todo-app-typescript-andrei.vercel.app/

Personal project - Sports Match
https://github.com/andrei-alexandrov/sports-match
This is my own project idea for an internet site with main focus on:

Connecting people, who share passion for a particular sport. Providing users with suggestions for the best places in their city, where they can play their favorite sport with another user.
